To check for pick up time changes, please visit <https://health.mo.gov/lab/pdf/courierlocationsbycounty.pdf> (updated periodically) or call the contact listed for the nearest pick up location.

*Location may not accept bacteriological samples directed to the State Public Health Laboratory or chemical (including nitrates, IOC's SOC's VOC's) samples directed to the Department of Natural Resources - Environmental Services Program. Check with this courier location prior to dropping off bacteriological or chemical samples.

+Radionuclide (Rads) samples **MUST** be shipped via UPS call-tag to the St. Louis Co Health Department as stated in the instructions. **Do NOT use** the Department of Health and Senior Services State Public Health Lab courier pickup locations for Rads samples.

The listed earliest pick up times take into account the SPHL courier contract, which allows a one-hour leeway from an estimated pick up time for each location. The contract also specifies the courier company cannot pick up anywhere in the state before 10:30 am. If you get to your drop off location and missed the courier by a few minutes, call 573-751-4830 to try to arrange for the courier to wait for you at the next pick up location.
